About Our Company

I'm Teri-An Consaul, the owner of SMW Relocation Services, and I'd like to thank you for considering us as your personal moving solution.

Thirty years ago, my husband and I owned and operated a single truck for a major household goods carrier. As the years went on, we saw how our industry was becoming more focused on sales and numbers and less focused on what we love to do: work with people.

Although the industry was moving away from personal connections and old-fashioned customer service values, we didn't like doing business that way. And that's why we founded SMW Relocation Services.

The reality is that most of today's major moving agents have a great sales

staff and excellent movers. In truth, you'll most likely have a problem-free move if you decide to go with our competition. But if a problem should arise, I promise we'll go the extra mile for you. As the owner, I consider myself accountable for everything we touch, and that's why I'm personally involved in every move, ensuring no detail is overlooked and all of your concerns are addressed.

My 30+ years experience are at your disposal to answer all of your questions, ease your mind, and help make your move as stress free as possible. You have my personal guarantee we won't let you down.

I'm not asking for your business; I'm asking for the opportunity to earn it.

Sincerely,

“What was most impressive to me was your ability to handle all the details, all the while making me feel like I was your most important priority, and that my needs were unique, not unreasonable, and would be attended to.”

— John Balla

Our Services

Moving

Whether your new home is down the street or on the other side of the globe, we'd love to help you get there.

Packing

Don't worry about how many boxes you'll need or who had the packing tape last ... leave *that* to our professional packing teams. And with free, binding estimates for materials and labor, you'll know ahead of time exactly how much your move will cost.

Some things, thanks to their age, value, etc., just aren't meant for boxes. That's where our custom crates come in. Built either on- or off-site, custom crates are a guaranteed way to make sure your valuables arrive safely.

“Maid-to-Order”

Our complete unpacking service can be custom tailored to your specific needs, whether you'd like us to unpack one box or settle your entire household.
